

MaxiLED Spotlight Series Installation Instructions

This product must be installed by a qualified electrician in accordance with all national and local electrical and construction codes. Failure to comply with the installation instructions can result in serious injury or death.

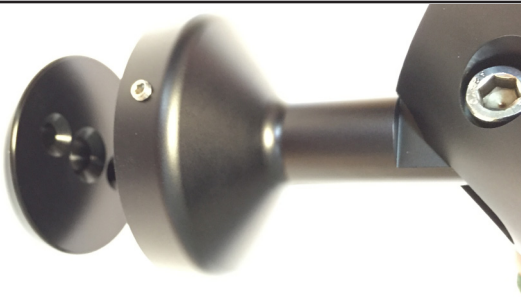

1 Fitting the Mounting plate (Wall or Surface)

- Start installation at the end of the strand where the power will input.
- Measure and Mark out Spotlight fittings location.
- Mount the Spotlight fixing plate to the required location using the suitable fixings.

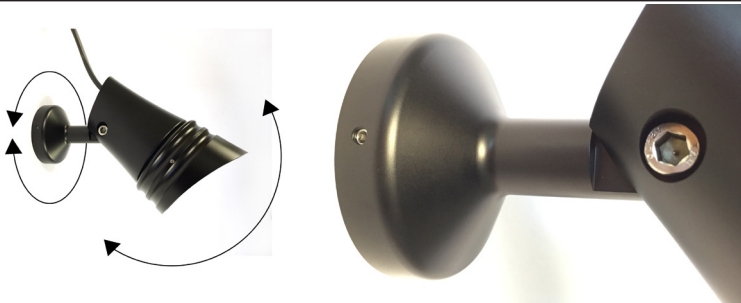

NOTE: Larger Centre Hole is for mounting to Ground Spike Fitting.

2 Align MaxiLED Spotlight to Mounting Plate

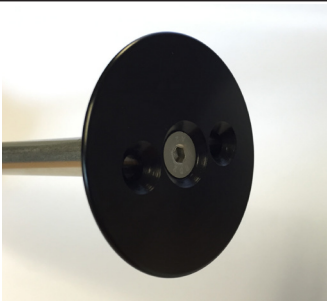

- Place the Spotlight onto the Mounting Plate from the rear and align the Spotlight to the Correct angle.
- Using the supplied 2mm / 0.08 inch hex wrench tighten the two grub screws on either side of the Spotlight and Lock into Position.

3 Angle the Spotlight

- Using the supplied 5mm / 0.20 inch hex wrench, loosen the two grub screws on either side of the housing. Once the position has been adjusted to suit, tighten the two Grub Screws.

4 Ground Spike option (For Garden / Landscape)

- MaxiLED Spotlight has the Option to be Mounted to a Spike which can be inserted to Soft Ground

- Using the fixing plate, align the Ground Spike with the screw. Using the 3mm / 0.12 inch hex wrench, tighten the screw.

- Follow the instructions from step 2.

(SEE INSTALLATION INSTRUCTIONS FOR POWER SUPPLY OPTIONS.)
