

CATENARY & SUSPENSION

Galvanised Wire Rope

Catenary cable in 6×19 fibre-core galvanised construction, for overhead spans carrying festoon and pendant runs. Two diameters cover the MaxiLED range: 3 mm for short domestic and hospitality spans, 6 mm for cross-the-street and long architectural spans.

- 6×19 fibre core
- Galvanised
- 3 mm and 6 mm
- Qualified installer only

6×19 FC CONSTRUCTION

SPECIFICATIONS

ROPE DIAMETER	CODE	KG PER 100 M	BREAKING LOAD (T)
3 mm	CAT003	3.11	0.5
6 mm	CAT006	12.5	2

Installation. All catenary cable must be fitted by a qualified installer. Breaking load is the rope’s rated figure, not a working load: apply the safety factor required by the local code and by the span calculation.
