

— FIXINGS

Self-expanding Tree Ties

Super-soft ribbed tie for supporting a festoon run on a living tree. The cushioned rib spreads the load and protects the bark, and the tie keeps expanding as the tree grows, so it does not need to be released and re-fitted season after season. Silicone-free.

- Polyvinylchloride
- Self-extinguishing
- -5 to +50 °C
- Silicone-free

ML-SLG-0001

SPECIFICATIONS

PRODUCT CODE	ML-SLG-0001
MATERIAL	Polyvinylchloride
COLOUR	Black
FLAMMABILITY	Self-extinguishing
OPERATING TEMPERATURE	-5 °C to +50 °C
PROPERTIES	Weatherproof, flexible, expands with growth

Note. Tree ties are not a structural fixing. The catenary or drop must carry the load; the tie positions and protects the cable.
